Projects:

➔ <u>**Content management System - Django**</u>
   July 2020 - September 2020

   Worked as a full stack developer, designed and developed the whole Website. It has features like notifications, chatting, message broadcasting, dynamic pages, multi role login system, multi user system, freeze users, **Payment Gateway**, etc. Used **Redux** for state management, **Channels** for handling more than just plain HTTP requests, **Bootstrap** for frontend coding, and **PayPal**'s payment gateway. Deployed the project on **Heroku.**

➔ <u>**Gaming Website - Django**</u>
   March 2021 - April 2021

   Designed and developed the whole backend system, It has features like payment Gateway, user dashboard, payment history, wallet system, a backend synchronized timer, etc. **Paytm**'s payment gateway is used. **MySQL** is used as a database, **GitHub** to maintain the code, and **AJAX** for the asynchronous requests. Deployed on Heroku.

Certifications:

➔ **Web Development Internship - Jamia Millia Islamia**
   May 2018 - July 2018

   Worked as a backend developer, created the complete backend system including user management, authentication and authorization, payment gateway, user dashboard, etc.
